25th September 2020

Dear Sir,

North London Waste Plan

I wrote to you on 12th February 2020 to tell you that the Boroughs were going to deal with the issues raised by the representors and yourself at the hearings through main modifications. The Boroughs hoped to consult on these modifications in May 2020.

However, in March 2020 lockdown measures were put in place by the government to prevent the spread of the Covid-19 virus. The Boroughs agreed not to start any consultation on modifications to the NLWP until both council staff and consultees are able to fully participate in the consultation process. While the Boroughs are mindful that some people may still need to shield or quarantine for a period of time, government guidance to stay at home has been eased, and it now seems an appropriate time to consult on the proposed modifications.

The North London Boroughs have prepared Main Modifications relating to soundness as well as Additional Modifications of a more minor nature. Accompanying addenda to the Sustainability Appraisal and Habitats Regulations Assessment setting out the implications of the modifications has also been prepared. These and other supporting documentation will be published alongside the Proposed Modifications for consultation for a minimum of six weeks.

After the consultation period ends, the Boroughs will provide you with copies of the full representations for your consideration.

In accordance with Section 20 (7c) of the Planning and Compulsory Purchase Act 2004, as amended, the North London Boroughs request that you recommend modifications to the NLWP, should they be required in order to make the document sound or legally compliant.

Yours sincerely

A handwritten signature in black ink that reads "Victoria Manning". The signature is written in a cursive style with a prominent initial 'V' and a long, sweeping tail.
